## SOUTH CAROLINA

## **DOCKET NO. 2020-63-E**

Petition of Bridgestone Americas Tire	)	
Organization, LLC for an Order	)	LATE-FILED HEARING EXHIBIT
Compelling Dominion Energy South	)	NO. 10
Carolina, Incorporated to Allow the	)	
Operation of a 1980 kW AC Solar Array	)	
as Authorized by State Law	)	
	)	

At the merits hearing in the above-referenced docket, Commissioner Howard requested a Late-Filed Hearing Exhibit, showing the anticipated loss to Dominion Energy South Carolina, Inc. ("DESC" or "Company") in kilowatt-hour ("kWh") sales should Bridgestone Americas Tire Organization, LLC's ("BATO") Solar Array become operational.

Using general industry estimates and not including project specifics, DESC expects the annual production of a similar array of the size of the BATO Solar Array, and the resulting loss to DESC in kilowatt-hour sales, to be approximately 3,700,000 kWh. Actual production will vary based on a number of factors such as weather, system design, equipment performance, etc. BATO or its installer can provide a better estimate of expected production for their project.
